

SULLIVAN & CROMWELL LLP

struct													
Detail	Note: If you wish to use an absolute template path (for example, template="/mypath/index.cfm") with CFINCLUDE, you must create a mapping for the path using the ColdFusion Administrator. Or, you can use per-application settings to specify mappings specific to this application by specifying a mappings struct to THIS.mappings in Application.cfc. Using relative paths (for example, template="index.cfm" or template="../../../index.cfm") does not require the creation of any special mappings. It is therefore recommended that you use relative paths with CFINCLUDE whenever possible.												
Message	Could not find the included template includes/.												
MissingFileName	includes/
